-E. P. & S. W. R. R.-

Arrives 5:45 p. m. Leaves 7 a. m.

Mother.

When I bin swimmin' all day long,
An' had a fight or two,
An' come home in the ev'n time
A feelin' mad and blue;
There's just one thing that always seems
Me angry thoughts to smother;
An' I fergit 'em when I see
The smilin' face of mother.
An' father sez when he comes home
From troubles on the street;
He sez that gentle smile, it makes
The whole blame world look sweet.
An' Carlo's dog talk says so too
An' so does sis and brother;
I tell you they ain't nothin' like
The smilin' face of mother.
It kinder brightens every place,
An' I know what I know,
That when I die an' go an' go away—
Coz we all have to go—
I'll need one proof to show me where
I'm at, don't need no other,
I'll know it's Heaven when I see
The smilin' face of mother.

Dry Land Farming.

Every year's experiments in farming the arid lands of the west gives added assurance of success. What is known as the Campbell system has already changed thousands of acres of desert into alfalfa fields, to grain farms, orchards and gardens.

This system, in brief, prepares the land in such a manner as to retain the moisture for the sustenance of the growing crop. This is done by improvements adapted to the system, which at present are manufactured in Denver, and cost no more than those used in ordinary farming. We hope to give illustrations of the new "farm tools," and something of the system in detail next week.

A Mr. George Ward of Las Vegas, is going to test dry farming methods on his own account. He has selected a tract of mesa land which he will first plow with a turning plow. Later he will stir the soil to a depth of fifteen inches, he row it until the soil is reduced to fine particles and plant crops of various kinds. In place of the dust covering advocated by the Campbell method, he will probably employ straw. Mr. Ward's methods will differ in some degree from those to be followed by the gentlemen who are going to make the test on a larger scale on grant lands, but the essential feature will be the same.

The variegated fiction in the Woman's Home Companion for April includes, "My Friend Jack," a stage story, by Clara Morris; "Jephtha Martin—Peacemaker," a tale of the South, by Clinton Dangerfield; "Discipling Darrel," a pretty love story by Zona Gale; "The Ambition of Viejo Chaves," a tale of the Pueblo Indians, by Lanier Bartlett; Burton E. Stevenson's lively serial, "Affairs of State," another of Elliot Flower's "Barney and Norah" sketches, and a very entertaining skit, "The Strength of Wisdom," by Pottle, Emery illustrated by Florence Seovel Shinn. Besides Miss Gould's fashion pages there are many other practical articles—"The Softly Shaded Light," "Cracked Norfolk Jackets," "A One-Summer Garden," "Eastertide Novelties for the Table," "Mrs. Anna S. Richardson's sensible discussion of "Beauty Culture as a Profession," and a timely entertainment in "An April Fools' Party," by Marjorie March. Published by The Crowell Publishing Company, Springfield, Ohio; one dollar a year; ten cents a copy.

No Joint Statehood for Him.

Deming March 12, 1906.

EDITOR GRAPHIC:

On last Friday evening when the wires brought to Deming the news that the infamous Rodey-Hamilton-Beveridge concoction had been defeated, the broad smile that illumined the countenances of three-fourth of the residents of Deming showed plainly that the cabal of pin headed office seekers of the two territories and the large coterie of would be new state capitol grabbers from the village a few miles north of the Belen cut off would receive no sympathy in Deming as they ponder on their inglorious defeat.

Right has again prevailed. We are still citizens of New Mexico and proud of it. Better another half century as a territory than a forced alliance with another community to whom the alliance was as obnoxious as to ourselves. All honor to glorious old Joe. Foraker and his associates in this great victory for the right; They have squelched the most iniquitous proposition that has come before Congress since the Lecompton constitution was presented.

Their names will be remembered with those great men—Douglass, Seward, Sumner and Crittenden, who stood for the right in the troublous days of old J. B's reign. Now, Mr. Editor, we wish you would purchase a large elm club and use it on the first man who says statehood. Let well enough alone. 23 for the jointist; give the colored population of the D. C. a rest.

C. A. T.

The Only Drawback.

Strangers and homeseekers visiting Deming are delighted with the location, climate water, general healthy condition and prosperity of this section. They see the new water plant and power house. Electric Lights, Telephone and ice manufacturing plant and praise the up to date enterprise of our people, but stand amazed when we tell them that we not only have no sewer system, but that there is no movement towards getting it. They can't understand why a people who have shown so much enterprise and intelligence in the general welfare of their beautiful little city should neglect the most important matter of all, the health and sanitary conditions of the city. Let us get a move on us and push this question to a successful issue.

Citizen.

Torture By Savages

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures Liver Complaint, Dyspepsia, Blood disorders and Malaria; and restores the weak and nervous to robust health. Guaranteed by all druggists. Price 50c.

Manganese Ore in Better Demand.

There is an increased demand for manganese ore, and it is learned on good authority that the Colorado Fuel and Iron company will shortly enter the market as a competitor to the Illinois steel works for the manganese that is in the camp, says the Leadville Courier. The reason for this is that the supply from outside centers is running short, and the only place that can be relied upon to fill this demand is Leadville.

Several years ago the properties that were supplying shut down when the steel companies got the supply from other points, as at that time Leadville could not compete, owing to heavy freight rates. Now this has been remedied, and the ore will be removed in large quantities this spring and summer. On this account many of the old properties will be put into commission again and the shafts and drifts retimbered. Also many new properties that contain manganese will be started up.

Next Monday.

The Hamilton, statehood bill has reached the speaker of the House where it is still awaiting action. It will be taken up for consideration Monday next by the House. In the meantime it is understood that a caucus of Republican members will be called to consider it and decide its fate.

Spray Your Trees.

The spraying season is now at hand and we give the formula for a lime, sulphur and salt wash for winter use upon deciduous trees for pernicious scale, curl leaf, peach moth, etc.:

Unslacked lime, 40 pounds
Sulphur, 20 pounds
Stock salt, 15 pounds
Water to make 60 gallons.

Directions—Place 10 pounds of lime and 20 pounds of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for not less than one hour and a half, or until the sulphur is thoroughly dissolved. When this takes place the mixture will be of an amber color. Next place in a cask 30 pounds of unslacked lime, pouring over it enough hot water to thoroughly slack it; and while it is boiling add the 15 pounds of salt. When this is dissolved add to the lime and sulphur in the boiler, and cook for half an hour longer, when the necessary hot water to make the 60 gallons should be added.

Follow the directions carefully, particularly the boiling, if you desire success. Use this remedy as late in the season as possible. The best results will be obtained by spraying just before the peach trees burst into full bloom. On cloudy, moist days blossoms will not be injured by this wash, but in dry weather with north wind blossoms will be damaged if full strength is used.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the cough begins, which can only be done when the remedy is kept at hand. For sale by all druggists.

House Bill

A bill is before Congress which reads, that from and after the first day of January, A. D. 1906, all property of every kind and character of any railroad or railroad company, and cars, including sleeping cars, locomotives and other equipment used thereon or in connection therewith in the territory of New Mexico shall be taxed in accordance with the laws governing the taxation of property in said territory.

Section 2.—That all laws of either of said territories, or of congress exempting any such property in any manner from taxation for any length of time or fixing the rate of taxation thereon, are hereby repealed.

Should the Hamilton joint statehood bill become a law, it is not believed that the bill will be pushed; otherwise, so say Washington advices, a strenuous effort is to be made to enact it into a law.

A Lively Tussle

With that old enemy of the race, Constipation, often ends in Appendicitis. To avoid all serious trouble with Stomach, Liver and Bowels, take Dr. King's New Life Pills. They perfectly regulate these organs, without pain or discomfort. 25c at all druggists.

Make A Note of This

The Deming City Water Co. have completed their water system and have developed an unlimited supply of pure soft water, and are supplying all applicants at lower rates than any other place in the territory. But to maintain these rates, the Co. must have the liberal patronage of all the people. In the great majority of cases, it will cost the consumer less than the expenses of keeping up his old windmill.

These low flat rates will be open only a few days, so all who wish to take advantage of these liberal terms should act promptly in making their application.

The Leupold Bros. family and party passed up in their private car to Silver City, thence by private conveyance to their Bonanza Mines, in the Burro Mountains, where they have invested over one quarter million dollars, and are now realizing over \$2,000 daily from their investments.

Title To Half-Million Acres To Be Cleared.

Las Vegas, N. M. March 7.—The Las Vegas grant of 500,000 acres is to have the individual titles settled at once. Judge E. V. Long, secretary of the board, has been appointed referee, and will pass on all claims to title by the settlers and the district court will then issue deeds on conditions prescribed.

It is the intention of the grant board to give complete title to all who have lived on lands for a period of ten years and to issue deeds to other lands on payment of a stipulated sum. Thousands of people live on the grant. Congress has confirmed the tract to the town of Las Vegas, but no individual titles have ever been given.

Statehood be Blessed.

Snow, sleet, blizzards in Colorado and the more northern states, torrential rains, cold and chilling, along the Pacific coast, trains and trolley cars snow stalled in the east, and sunshine, gentle spring showers, spring flowers and blooming fruit trees in New Mexico.

And the towns and country are filled with new comers who are seeking homes and making arrangements here to live and to die, basking in the sunshine, singing.

"My soul would ever stay
In such a place as this."

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Addington, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by all druggists.

Col Bumpus called this week and said for publication in the Graphic that the Hamilton bill becomes a law without the Foraker amendment, the judicial department of our government will declare it unconstitutional. All right. The next time we knock at the door of the Union, we'll be judicious enough to have no Oklahoma or Arizona strings attached to us.

Better Than Ever.

The prospects of the stockmen in southern New Mexico were never brighter at this season of the year. "Arizona" or "New Mexico," will make no difference with the season, the grass or the stock. The cattle will soon leave the ranges and the Territory for the eastern market.

For Sale—A Bargain.

A new Ethredge sewing machine, direct from the factory, with all the attachments. Oak finished, noiseless, light running, drop head, has all the latest improvements. Warranted for five years. A first class \$65 machine, and equal to any sold at that price. Inquire at this office.

Bicycle for Sale.

A Ladies Sterling wheel, in good condition. With proper care will last for years. Only \$14 if sold soon. Inquire at this office.

Don't Give Up.

Keep your head above water,
Help is coming by and by;
Clouds are lifting, sun is shining
Through the rift up in the sky.

Extremes.

Oh who shall show the happy way
For man to live from day to day?
He works until his strength gives out
Or else he loaf and gets the gout.

Bits and spurs made to order, guns and revolvers repaired, and grinding and saw-filing done at Small's repair shop on Silver avenue.

Rooms for Rent.

Large, comfortable rooms across the street from the Episcopal church, four blocks west of the postoffice. Brick house, strictly modern, fine lawn, hot and cold water; also, boarders wanted, with or without rooms. Home cooking. Call on Mrs. E. Petty.

Mourning stationery for funeral notices, just received.

Cooke Chapman, A. L. Sangre, C. L. Baker
